**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) ☒ Responsive to communication(s) filed on 29 May 2003.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 16 and 23 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Manning.

In regards to claim 16, Manning shows all the elements of the claimed invention in fig. 6C. It is a semiconductor device, comprises: a semiconductor substrate [67]; a plurality of element isolation films [70] formed such as to have a predetermined uniform depth from a main surface of said semiconductor substrate, said element isolation films [70] dividing the area from said main surface to said depth into a plurality of first regions; first wells [95, 116] formed in said first regions, respectively; and a second well [66] formed in a second region deeper than each of said first wells [95, 116] in said semiconductor substrate, said second well [66] being in contact with some of said first wells [95] to provide electrical connection therebetween and not being in contact with said first wells [116] adjacent to said some of said first wells [95], wherein said first and second wells [95, 66] of said first and second regions on one side with reference to a predetermined boundary are of a first conductivity type (n-type), and said first wells [116] on the other side are of a second conductivity type (p-type), and wherein said second well [66] is formed only on one side of said second region with reference to the predetermined boundary.

In regards to claim 23, Manning further discloses a single element (N-well tie [95]) is formed in a single first region.

3. Applicant's arguments filed 5/29/03 have been fully considered but they are not persuasive.

It is urged, in page 3 of the remarks, that claim 16 is allowable because claim 16 has been amended to recite that the second well is in contact with some of the first wells to provide electrical connection therebetween and is not in contact with the first wells adjacent to said some of the first wells. However, Manning also discloses the second well [66] is in contact with some of the first wells [95] to provide electrical connection therebetween and is not in contact with the first wells [116] adjacent to said some of the first wells [95]. Therefore, Manning is still read on amended claim 16.

4. Claims 1, 5, 15, 20, 22 and 24 are allowed.

5. Claim 19 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

Art Unit: 2811

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Steven Loke whose telephone number is (703) 308-4920. The examiner can normally be reached on 7:50 am to 5:20 pm.
